

Bright Coffee — Sales Performance & Insights Dashboard

Bright Coffee — Executive Insights & Recommendations

Revenue & Growth: Total revenue of **\$698,812** across 6 months (Jan-Jun 2023) with strong upward momentum — revenue doubled from \$81K in January to \$166K in June. Sustain this growth with seasonal promotions and loyalty programs.

Product Mix: Coffee drives **39%** of revenue (\$275K), followed by Tea at **30%** (\$207K). Barista Espresso is the #1 product at \$91K. Cross-sell food items (only 9% of revenue) with coffee orders to lift the \$4.69 average transaction value.

Peak Hours: The 8-10 AM window generates **\$256K** (37% of total revenue). Staff heavily during morning rush and pre-prepare popular items to reduce wait times. Afternoon hours (12-5 PM) still generate steady \$40K/hour — consider happy-hour promotions.

Store Performance: All 3 stores perform nearly equally (\$230K-\$237K each). Hell's Kitchen leads slightly. Investigate best practices from the top store to replicate.

Weekday Patterns: Revenue is remarkably flat across all days (\$97K-\$102K). Weekend dip is minimal — maintain consistent staffing levels throughout the week.
